HEAVYWEIGHT REWARDS

SPECIFICATIONS

ELECTRIC POWERED LIFT TRUCKS 96V, 6.0 - 12.0 TONNES

IMPROVEMENT THAT PAYS FOR ITSELF

INVEST IN HIGHER PERFORMANCE AND OPERATING ECONOMY. CAT HEAVY ELECTRIC FORKLIFTS ARE BUILT TO BOOST YOUR PRODUCTIVITY AND SAVE YOU MONEY. DAY AFTER DAY. WHATEVER THE CONDITIONS. TO THOSE BENEFITS, THEY ADD SMOOTH, QUIET COMFORT THAT GETS THE BEST OUT OF YOUR DRIVERS.

High-capacity batteries and energy-efficient electrical systems give an ideal blend of performance and runtime. Batteries are divided into two parts for easy lateral exchanges using a pallet truck or other forklift. The trucks' low maintenance needs and durability against harsh environments further reduce ongoing costs and downtime.

Advanced electric drive and lift motor technology gives all the power and speed you want. High torque, acceleration and lifting strength combine with precise electronic control and smoothness in all actions. High-positioned mast tilt cylinders enhance stability and residual capacity.

Compact truck dimensions and high steering angles – including +100° steer axle turning on NH models – allow excellent manoeuvrability. A low overhead guard, optionally available at all truck capacities, allows entry into containers. Safe and accurate manoeuvring is aided by clear-view design and a rear-view camera.

A low seating position means less climbing for drivers who frequently leave and re-enter the cab. The spacious, comfortable and ergonomic driver compartment is rubber-mounted to minimise vibration and noise. Hydraulic pumps, drive units and controllers are also designed for quiet operation, comfort and low stress.

LOWER COST OF OPERATION

- Latest electric motor technology reduces energy consumption while increasing power.
- Advanced controllers ensure highly efficient motor management and are positioned close to their respective motors to shorten wiring and minimise energy losses.
- Large battery capacity and voltage combine with high electrical system efficiency to extend working hours (runtime) while enabling strong performance.
- Strong regenerative braking recycles energy.
- Charging hatch saves on time and labour by allowing quick connection for recharging without removing the battery.
- 96V battery is divided into two parts, easily accessed without tricky doors or catches, for fast lateral exchange by one person using a power pallet or other lift truck.
- Multifunctional, interactive, colour display encourages correct use and maintenance of truck.
- Simple plug-in diagnostics and troubleshooting reduce downtime and maintain efficient performance.
- Easy maintenance access features speed up servicing of motors, controllers and other systems.
- Sealing of motors to IP54 standard protects against splashing and wind-driven water, as well as dust and dirt, for use in all weathers and on wet or muddy ground.
- Sealing of controllers to IP65 standard gives even higher protection to sensitive electronics.
- Protective enclosure of motors and controllers within truck's design further shields components from hostile conditions.
- Additional rear oil cooler prevents damage due to overheating and helps maintain optimum temperature for efficient functioning of systems. (NH models.)
- Fork carriage offers option of eight rollers (instead of six) for extra confidence in heavy use.
- Robust construction reduces repair and part replacement needs and helps maintain truck's high residual value.

UNMATCHED PRODUCTIVITY

- Powerful twin traction motors in front axle generate high RPM, torque and acceleration.
- Powerful single lift motor provides fast, strong and precisely controlled hydraulic movements.
- Advanced traction and hydraulic pump controllers make all drive, mast and fork actions smooth and precise.
- High steering angles, precise electronic control and compact truck dimensions contribute to agile manoeuvring.
- +100° rear steering axle enables the truck to turn on the spot, within its own dimensions, and to make instant side turns with no need for initial backward movement. (NH models.)
- Intelligent curve control assures quick but safe cornering by smoothly adjusting truck speed according to steered angle.
- High-positioned mast tilt cylinders enhance stability, especially at greater heights, and increase residual capacity.
- Low overhead guard option is available on all models – even those with the highest load capacities – for work in containers.

SAFETY AND ERGONOMICS

- Silent hydraulic pumps together with quiet drive units, controllers and other low-noise technologies keep driver comfortable and stress-free, increase awareness of surrounding activity and avoid disturbing neighbours and co-workers.
- Rubber-mounted operator compartment minimises vibration and noise.
- Low seating position means much less climbing for drivers when frequently leaving and re-entering the cab.
- Long grab handle and wide, anti-slip step aid entry and exit.
- Spacious, uncluttered operator compartment offers plenty of foot room, overhead clearance and useful storage areas.
- High-comfort seat is fully adjustable for driver size and weight, armrest position and other preferences.
- Easy-to-read colour display keeps drivers fully informed.
- Clear-vision mast design includes nesting of triplex stage within duplex and division of free lift cylinders into two parts.

- Rear-view camera (fitted as standard) combines with special mast, dashboard and overhead guard designs to give clear all-round views with little or no need for driver to lean or change position.
- Separate air conditioner and heater options allow choice of one or other, or both, or – for very cold regions – two heating units.
- Window heating elements can be optionally specified for demisting front and/or rear glass.
- Weatherproof panel options include: front windscreen (low or normal) with wash/wipe and roof; transparent plexiglass roof; PVC doors; or a full comfort cabin.
- Knob on ergonomic steering wheel aids turning.
- Telescopic steering column is adjustable for depth as well as angle, ensuring the most ergonomic and comfortable position.
- Fingertip hydraulic controls on a comfortable, adjustable armrest are standard on NH models.
- Manual hydraulic control levers are standard on N models but can be optionally swapped for fingertip units.
- Pedal designs, positions and angles reduce fatigue for drivers of any height or foot size.
- Separate forward and reverse pedals allow rapid changes of direction in busy operations and are accompanied by a large brake pedal for fast application with little effort.
- Conventional accelerator pedal option can be selected if preferred, with optional direction-change lever on steering column.
- Automated parking brake is activated after a set period when truck stops.
- Seat switch deactivates travel if driver leaves the truck.
- Bright orange seat belt colour helps in encouraging and enforcing best safety practice.
- Sensorised seat belt shows warning light and prevents truck operation if belt is not fastened.
- Emergency stop button is located behind the driver's seat if needed.
- Lighting options include road light kit, LED work lights, amber strobes and blue spots.

Characteristics	
1.1	Manufacturer
1.2	Manufacturer's model designation
1.3	Power source: (battery, diesel, LP gas, petrol)
1.4	Operator type: pedestrian, standing, seated
1.5	Load capacity Q (kg)
1.6	Load centre distance c (mm)
1.8	Load distance, axle to fork face x (mm)
1.9	Wheelbase y (mm)
Weight	
2.1	Truck weight, without load / including battery (simplex mast, lowest lift height) kg
2.2	Axle loading with maximum load, front/rear (simplex mast, lowest lift height) kg
2.3	Axle loading without load, front/rear (simplex mast, lowest lift height) kg
Wheels, Drive Train	
3.1	Tyres: V-solid, L=pneumatic, SE=solid pneumatic - front/rear
3.2	Tyre dimensions, front
3.3	Tyre dimensions, rear
3.5	Number of wheels, front/rear (x=driven)
3.6	Track width (centre of tyres), front b10 (mm)
3.7	Track width (centre of tyres), rear b11 (mm)
Dimensions	
4.1	Mast tilt, forwards/backwards δ / β °
4.2	Height with mast lowered (see tables) h1 (mm)
4.3	Free lift (see tables) h2 (mm)
4.4	Lift height (see tables) h3 (mm)
4.5	Overall height with mast raised h4 (mm)
4.7	Height to top of overhead guard h6 (mm)
4.8	Seat height h7 (mm)
4.12	Tow coupling height h10 (mm)
4.19	Overall length l1 (mm)
4.20	Length to fork face (includes fork thickness) l2 (mm)
4.21	Overall width b1 / b2 (mm)
4.22	Fork dimensions (thickness, width, length) s / e / l (mm)
4.23	Fork carriage iso 2328/30, FEM/A,B
4.24	Fork carriage width b3 (mm)
4.31	Ground clearance under mast, with load m1 (mm)
4.32	Ground clearance at centre of wheelbase, with load (forks lowered) m2 (mm)
4.33	Working aisle width with 1000 x1200 mm pallets, crosswise Ast (mm)
4.34b	Working aisle width with 800 x1200 mm pallets, lengthwise Ast (mm)
4.35	Turning circle radius Wa (mm)
4.36	Minimum distance between centres of rotation b13 (mm)
Performance	
5.1	Travel speed, with/without load km / h
5.2	Lifting speed, with/without load m / s
5.3	Lowering speed, with/without load m / s
5.5	Rated drawbar pull, with/without load N
5.6	Maximum drawbar pull, with/without load (5 min. short duty) N
5.7	Gradeability, with/without load %
5.8	Maximum gradeability, with/without load %
5.9	Acceleration time (10 metres) with/without load s
5.10	Service brakes (mechanical/hydraulic/electric/pneumatic)
Electric Motors	
6.1	Drive motor capacity (60 min. short duty) kW
6.2	Lift motor output at 15% duty factor kW
6.3	Battery DIN 43 531/35/36 A/B/C/no
6.4	Battery voltage V / Ah
6.5	Battery weight kg
6.6b	Energy consumption acc. to VDI cycle ³ kWh / h
Miscellaneous	
8.1	Type of drive control
10.1	Maximum operating pressure for attachments bar
10.2	Oil flow for attachments l / min
10.7	Noise level, value at operator's ear (EN 12053) dB (A)
10.8	Towing coupling design / DIN type, ref.

3.1	Tyres: V-solid, L=pneumatic, SE=solid pneumatic - front/rear
3.2	Tyre dimensions, front
3.3	Tyre dimensions, rear
3.5	Number of wheels, front/rear (x=driven)
3.6	Track width (centre of tyres), front b10 (mm)
3.7	Track width (centre of tyres), rear b11 (mm)
Dimensions	
4.1	Mast tilt, forwards/backwards δ / β °
4.2	Height with mast lowered (see tables) h1 (mm)
4.3	Free lift (see tables) h2 (mm)
4.4	Lift height (see tables) h3 (mm)
4.5	Overall height with mast raised h4 (mm)
4.7	Height to top of overhead guard h6 (mm)
4.8	Seat height h7 (mm)
4.12	Tow coupling height h10 (mm)
4.19	Overall length l1 (mm)
4.20	Length to fork face (includes fork thickness) l2 (mm)
4.21	Overall width b1 / b2 (mm)
4.22	Fork dimensions (thickness, width, length) s / e / l (mm)
4.23	Fork carriage iso 2328/30, FEM/A,B
4.24	Fork carriage width b3 (mm)
4.31	Ground clearance under mast, with load m1 (mm)
4.32	Ground clearance at centre of wheelbase, with load (forks lowered) m2 (mm)
4.33	Working aisle width with 1000 x1200 mm pallets, crosswise Ast (mm)
4.34b	Working aisle width with 800 x1200 mm pallets, lengthwise Ast (mm)
4.35	Turning circle radius Wa (mm)
4.36	Minimum distance between centres of rotation b13 (mm)
Performance	
5.1	Travel speed, with/without load km / h
5.2	Lifting speed, with/without load m / s
5.3	Lowering speed, with/without load m / s
5.5	Rated drawbar pull, with/without load N
5.6	Maximum drawbar pull, with/without load (5 min. short duty) N
5.7	Gradeability, with/without load %
5.8	Maximum gradeability, with/without load %
5.9	Acceleration time (10 metres) with/without load s
5.10	Service brakes (mechanical/hydraulic/electric/pneumatic)
Electric Motors	
6.1	Drive motor capacity (60 min. short duty) kW
6.2	Lift motor output at 15% duty factor kW
6.3	Battery to DIN 43 531/35/36 A/B/C/no
6.4	Battery voltage V / Ah
6.5	Battery weight kg
6.6b	Energy consumption acc. to VDI cycle ³ kWh / h
Miscellaneous	
8.1	Type of drive control
10.1	Maximum operating pressure for attachments bar
10.2	Oil flow for attachments l / min
10.7	Noise level, value at operator's ear (EN 12053) dB (A)
10.8	Towing coupling design / DIN type, ref.

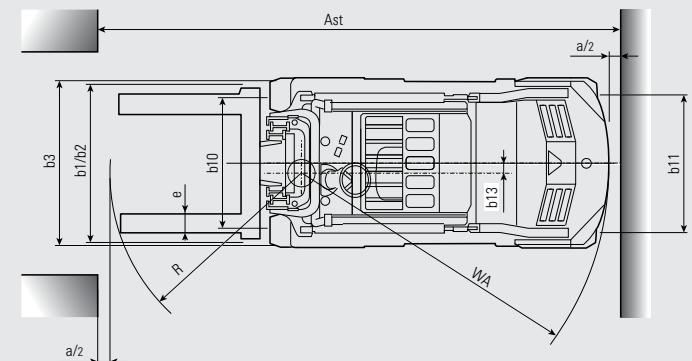

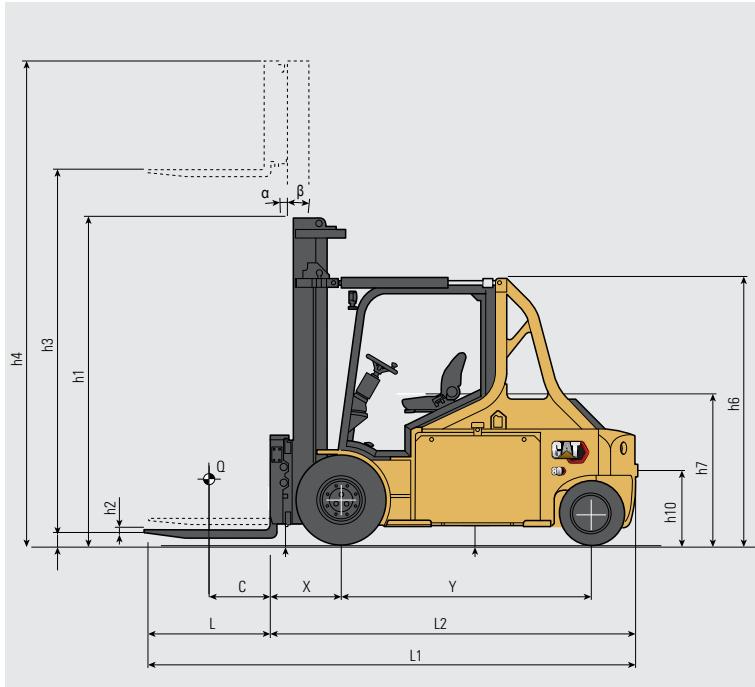

This specification sheet provides details of the standard truck specification in accordance with VDI Guideline 2198.

1) Depending on the type of mast

2) Custom design fork carriage

3) Cycles performed / cycles requested

Characteristics	
1.1	Manufacturer
1.2	Manufacturer's model designation
1.3	Power source: (battery, diesel, LP gas, petrol)
1.4	Operator type: pedestrian, standing, seated
1.5	Load capacity Q (kg)
1.6	Load centre distance c (mm)
1.8	Load distance, axle to fork face x (mm)
1.9	Wheelbase y (mm)
Weight	
2.1	Truck weight, without load / including battery (simplex mast, lowest lift height) kg
2.2	Axle loading with maximum load, front/rear (simplex mast, lowest lift height) kg
2.3	Axle loading without load, front/rear (simplex mast, lowest lift height) kg
Wheels, Drive Train	
3.1	Tyres: V-solid, L=pneumatic, SE=solid pneumatic - front/rear
3.2	Tyre dimensions, front
3.3	Tyre dimensions, rear
3.5	Number of wheels, front/rear (x=driven)
3.6	Track width (centre of tyres), front b10 (mm)
3.7	Track width (centre of tyres), rear b11 (mm)
Dimensions	
4.1	Mast tilt, forwards/backwards δ / β °
4.2	Height with mast lowered (see tables) h1 (mm)
4.3	Free lift (see tables) h2 (mm)
4.4	Lift height (see tables) h3 (mm)
4.5	Overall height with mast raised h4 (mm)
4.7	Height to top of overhead guard h6 (mm)
4.8	Seat height h7 (mm)
4.12	Tow coupling height h10 (mm)
4.19	Overall length l1 (mm)
4.20	Length to fork face (includes fork thickness) l2 (mm)
4.21	Overall width b1 / b2 (mm)
4.22	Fork dimensions (thickness, width, length) s / e / l (mm)
4.23	Fork carriage iso 2328/30, FEM/A,B
4.24	Fork carriage width b3 (mm)
4.31	Ground clearance under mast, with load m1 (mm)
4.32	Ground clearance at centre of wheelbase, with load (forks lowered) m2 (mm)
4.33	Working aisle width with 1000 x1200 mm pallets, crosswise Ast (mm)
4.34b	Working aisle width with 800 x1200 mm pallets, lengthwise Ast (mm)
4.35	Turning circle radius Wa (mm)
4.36	Minimum distance between centres of rotation b13 (mm)
Performance	
5.1	Travel speed, with/without load km / h
5.2	Lifting speed, with/without load m / s
5.3	Lowering speed, with/without load m / s
5.5	Rated drawbar pull, with/without load N
5.6	Maximum drawbar pull, with/without load (5 min. short duty) N
5.7	Gradeability, with/without load %
5.8	Maximum gradeability, with/without load %
5.9	Acceleration time (10 metres) with/without load s
5.10	Service brakes (mechanical/hydraulic/electric/pneumatic)
Electric Motors	
6.1	Drive motor capacity (60 min. short duty) kW
6.2	Lift motor output at 15% duty factor kW
6.3	Battery to DIN 43 531/35/36 A/B/C/no
6.4	Battery voltage V / Ah
6.5	Battery weight kg
6.6b	Energy consumption acc. to VDI cycle ³ kWh / h
Miscellaneous	
8.1	Type of drive control
10.1	Maximum operating pressure for attachments bar
10.2	Oil flow for attachments l / min
10.7	Noise level, value at operator's ear (EN 12053) dB (A)
10.8	Towing coupling design / DIN type, ref.

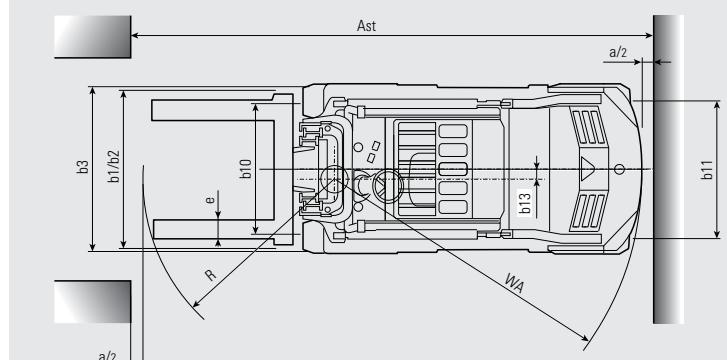

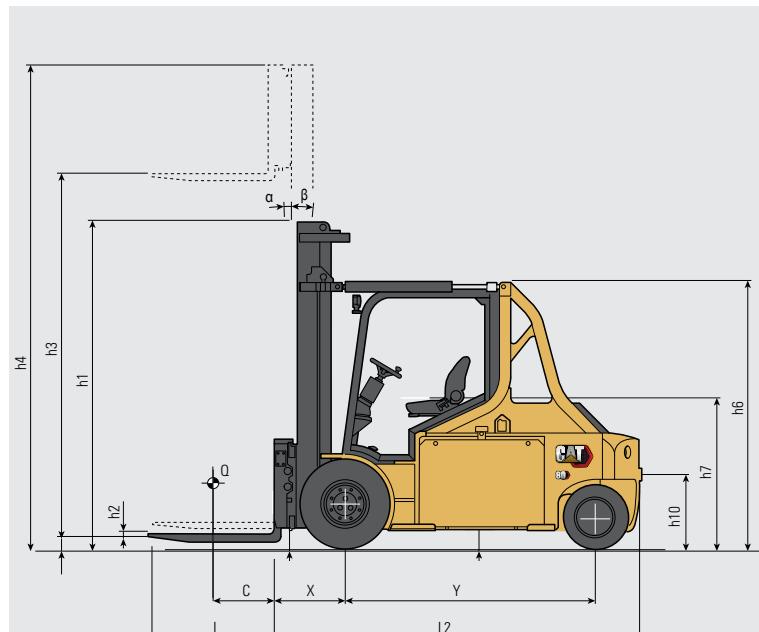

This specification sheet provides details of the standard truck specification in accordance with VDI Guideline 2198.

1) Depending on the type of mast

2) Custom design fork carriage
